

# Questions for the Speech Language Pathologist

1. Have you worked with the deaf and hard of hearing population before? What ages?
2. How familiar are you with the different languages and communication modalities deaf and hard of hearing children and their families can use?
3. What is your experience with augmentative and alternative communication (AAC) use with deaf/hard of hearing children?
4. What is your experience with the deaf and hard of hearing and/or disabled populations? What is your philosophy for serving deaf and hard of hearing children?
5. What is your experience with auditory verbal therapy (AVT) and auditory-oral therapy?
6. What is your experience with sign language?
7. Would you be willing to put me in contact with a Deaf mentor and/or Deaf guide?
